# MATERIAL SAFETY DATA SHEET 

Date Printed: $8 / 6 / 2010$
SUPERCEDES: All

## SECTION 1: CHEMICAL PRODUCT and COMPANY IDENTIFICATION

PRODUCT CODE: 7189001-0
PRODUCT NAME: C60S-7008
PRODUCT USE: A mixture of various fillers, plasticizers, and rubber chemicals bound in a polymer matrix.

DYNA-MIX, NC. P.O. Box 369, Country Club Road, Grafton, WV 26354
TEL: (304) 265-5100 FAX: (304) 265-5104 Emergency Phone Number: (800) 255-2681
SECTION 2: HAZARD IDENTIFICATION

| TNGREDIENT | CAS\# | TWT $\%$ | EXPOSURE LIMIT |
| :--- | :---: | :---: | :---: |
| Ethylene thiourea | $000096-45-7$ | $<1 \%$ |  |
| Zinc oxide | $001314-13-2$ | $1-10 \%$ | 0.000 MGM |
| Carbon black | $001333-86-4$ | $30-40 \%$ | 0.000 MGM |
| STYRENE/BUTADIENE COPOLYMER | $009003-55-8$ | $10-20 \%$ | 0.000 |
| MAGNESIUM SILICATE | $014807-96-6$ | $<1 \%$ |  |
| ETHYLDIENE NORBORNENE TERPOLYM | $025038-36-2$ | $1-10 \%$ | 0.000 |
| MINERAL OIL PETROLEUM DISTILL. | $064742-52-5$ | $10-20 \%$ | 0.000 |

Hazardous Ingredients listed as specified by CFR 291910.1200
This Product is a solid mixture. Exposure linits to hazards are not expected under normal conditions.

## SECTION 3: REGULATORY INFORMATION

See Section 10 for the full name of each agency reported. All components of the product are listed on the TSCA inventory list.

Zinc oxide
Carbon black
S'I'YRENE/BUTADJENE COPOLYMER
MINERAL OIL PETROLEUM DISTILL

## SECTION 4: PHYSICAL DATA

Specific Gravity: 1.206
Appearance: Black rubbery strips and slabs
Solubility in water: Insuluble
Vapor Pressure: N/A
HMIS Rating: Health-1 Flanmability-0 Reactivity-0

## SECTION 5: FIRE AND EXPLOSION DATA

[^0]
## SECTION 6: ROUTES OF ENTRY AND RELATED HEALTH HAZARDS

INHALATION: Inhatation of this product under normal ambient and ventiated processing conditions is normally not a problem. Hot processing of rubber may cause irritation to the nose and throat. May aggravate existing respiratory problems.
EYES: If cyes become irritated from hot vapor, flush with water. If initation persists, seek medical attention
SKIN: Minimize skin contact through material handling methods. If contacted by skin wash with soap and water. If irritation develops, seek medical attention. INGESTION: N/A

## SECTION 7: EMERGENCY AND FIRST AID PROCEDURES

INHALATION: If person is overcome by vapors from rubber during hot processing operations, remove person to a fresh air area. Seek medical attention. EYES: If eyes become irritated from hot processing operations, flush with water to relieve iritation. If still irritated, seek medical attention. SKIN: Avoid prolonged skin contact. Wash with warm soapy water if skin exposure occurs.
INGESTION: N/A

## SECTION 8: REACTIVITY DATA AND WASTE DISPOSAL

STABILITY: Stable
CONDITIONS TO AVOID: None
HAZARDOUS POLYMERIZATION: None
DISPOSAL: Dispose material in an approved site in accordance with local, county, state, and federal regulations.

## SECTION 9: SPECIAL PROTECTION INFORMATION

VENTILATION: Ventilation should be provided during all hot processing operations to maintain exposure levels below allowable TWA/PEL. RESPIRATORY PROTECTION: Respiratory protection is recommended during processing at ekvated temperatures in areas where there is madequate ventilation to reduce exposure levek below the PEL/TWA.
PROTECTIVE GLOVES: Gloves are recommended to eliminate employee skin exposure.
EYE PROTECTION: ANSI approved eye protection is recommended during processing at elevated temperature levels.
WASHING FACILITIES: Eyewash and an area to wash hands should be made available to employees in hot processing areas.

## SECTION 10: REGULATORY AGENCY DESCRIPTIONS

CERCLA: Comprehensive Environmental Response Compensation and Liability Act
OSHA: Occupational Safety and Heath Administration
PA RTK: Pennsylvania Right To Know.
SARA 303: SARA Title III Section 302 Extremely Hazardous Substances - 40 CF Part 355
SARA 311: SARA Title III Section 311/312
SARA 313: SARA Title III Section 313 - 40 CFR Part 372
TSCA: Toxic Substance and Control Act
NJ RTK: New Jersey Right To Know
The precise composition of this product is proprictary mformation. A more complete disclosure will be provide to a physician or nurse in the event of a medical emergency. product specification, applications, prices, and availability are given in a separate publication which can be secured from Dyna-Mix through the sales department. Dyna-Mix's MSDS do not melude the suitability of the product mentioned for any specific application nor any precaution that may be appropriate for the use of finished products. The conditions on which Dyna-Mix products are processed and used are beyond Dyna-Mix's control
Dyna-Mix is not aware of any unusual health hazards associated with handling of any type of raw product bisted on the MSDS. However, where there is hazard information known to Dyna-Mix, it is identified as prudently as possible.

Dyna-Mix provides the information herein in compliance with OSHA Hazard Communication Standard, 29 CFR 1910.1200 to give warning of actual and assumed haazards, and inform genreally applicable precautions and control measures whcih are known to Dyna-Mix. Harard information is based on available scientific evidence but is not always obtained from sources under the direction or control of Dyna-Mix. Dyna-Mix makes no warranty that the information is accurate, reliable, complete or representative, and buyer may relay on only Buyer's own risk. Dyna-Mix warrants only that it has made no effort to censor other than trade secret information or to conceal hazards of its products. The data shown on thsese pages in no way modifies, amends or enlarges any specification or warranty nor does Dyna-Mix offer warranty against patent infringement.

[^0]:    BURNING CHARACTERISTICS: Material is not easily ignited and does not burn with usual rapidity. Bulk storage of material is subject to hot, difficult to control, and dense smokey frie. Irratating and/or toxic vapors may be present.
    EXTIGUISHING MEDIA: All fïe extinguishing media permitted, water recommended for cooling fire
    FIRE FIGHTING EQUIPMENT: Use self contamed breathing apparatus (SCBA) to fight fires.
    UNSUAL FIRE AND EXPLOSION HAZARDS: No explosive hazards expected Airborne dust may explode if ignited from a grinding or buffing operation. HAZARDOUS DECOMPOSITION PRODUCTS: Carbon monoxide, cerbon dioxide, asphyxiantes, various hydrocarbons.
